

# P2P4X

It's time of limitless  
possibilities

# ABOUT **THE** PROJECT

P2P4X – the **fastest** and **most reliable** earnings  
in the Internet today

# P2P4X

The P2P4X project is based on a mathematical allocation algorithm based on a multi-level network of partners.

The advanced marketing of the P2P4X project is based on matrix tables that have their unique ability to effectively generate revenue from the affiliate program.

# THE BENEFIT OF THE PROJECT

## AVAILABLE TO EVERYONE

Participation doesn't require experience or special education, and the minimum amount of participation is from \$50

## THE TRANSPARENCY OF THE SYSTEM

Mathematical algorithm of distribution of funds between affiliates on the principle of P2P exchange

## EARNINGS HERE AND NOW

Quick and reliable earnings on the working algorithm of the system

## THE BROAD GEOGRAPHICAL PRESENCE

We work all over the world: Europe, Asia, South America, Africa, etc.

## CRYPTOCURRENCY INTERACTION

Fast, secure, with minimal commissions. No limit on the amount of the transfer. All transfers between affiliates are made in (cryptocurrency) USDT TRC-20

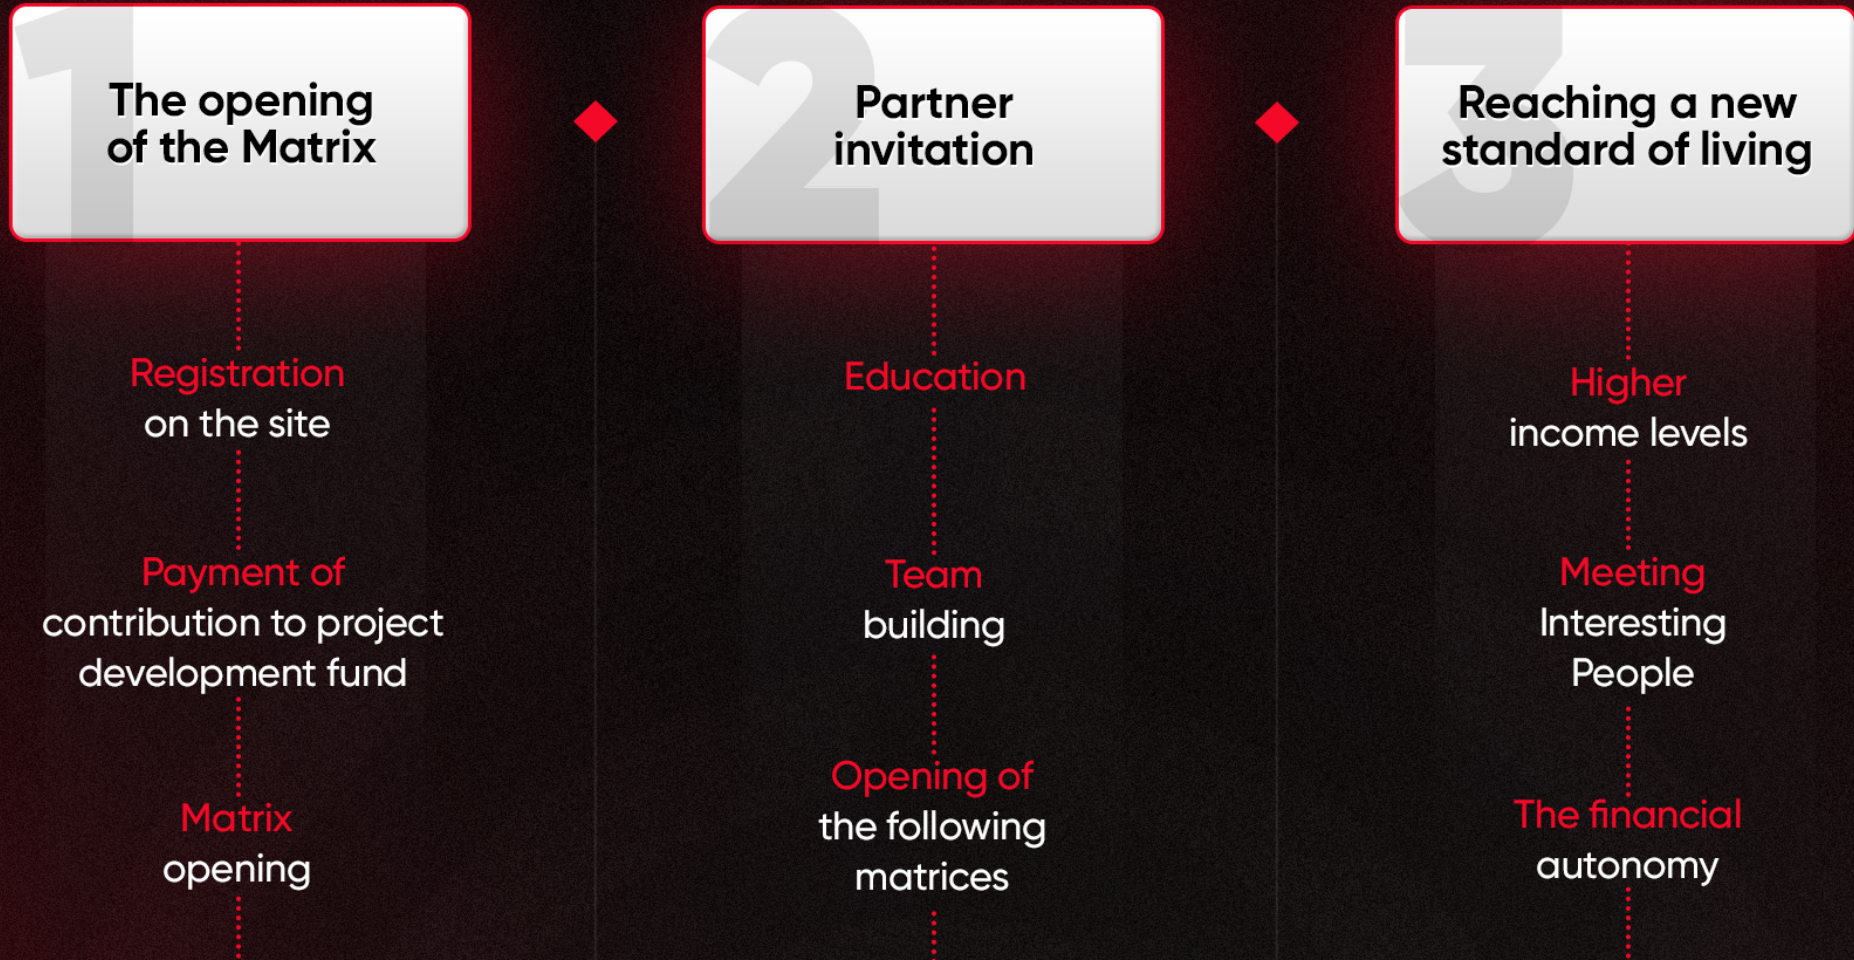

## STRONG NETWORK LEADERS

With a lot of experience and teams of tens of thousands of people

# HOW IT WORKS

# AFFILIATE ACCESS

To start **earning with P2P4X**, all you need to do is **sign up** on the website and **pay** a project development fund fee.

**Subscription fee is**

**\$10**

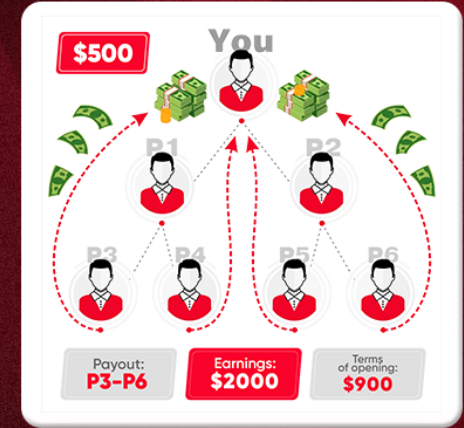

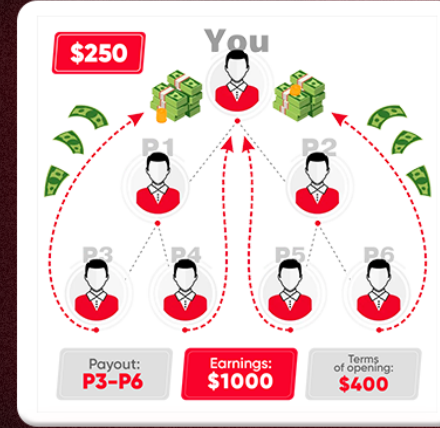

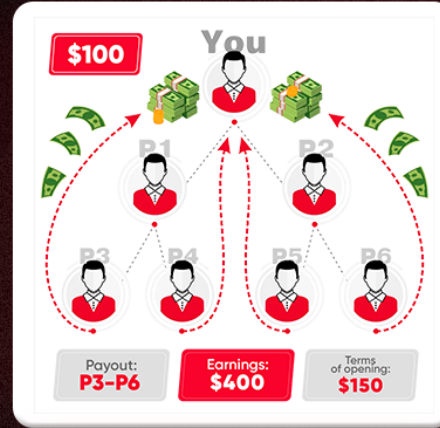

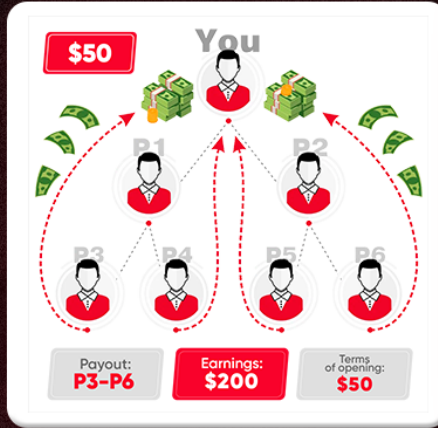

**90 days**

**\$30**

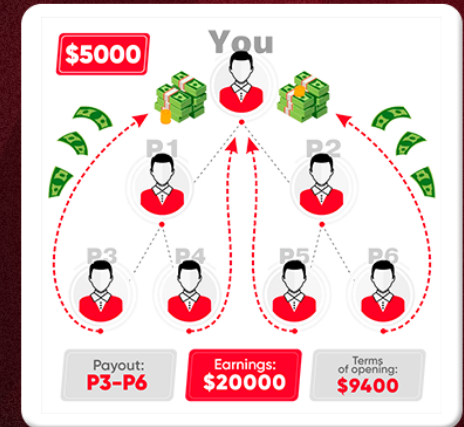

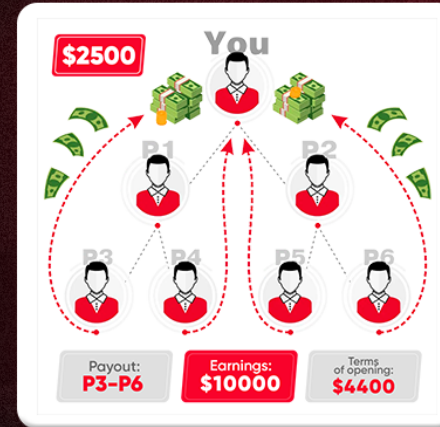

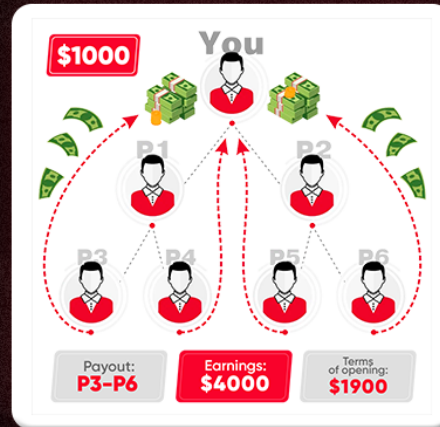

**365 days**

# THE AVAILABLE MATRIX LEVELS

Open all **7 matrices**  
for **\$9,400** and you  
can earn **\$37,600**

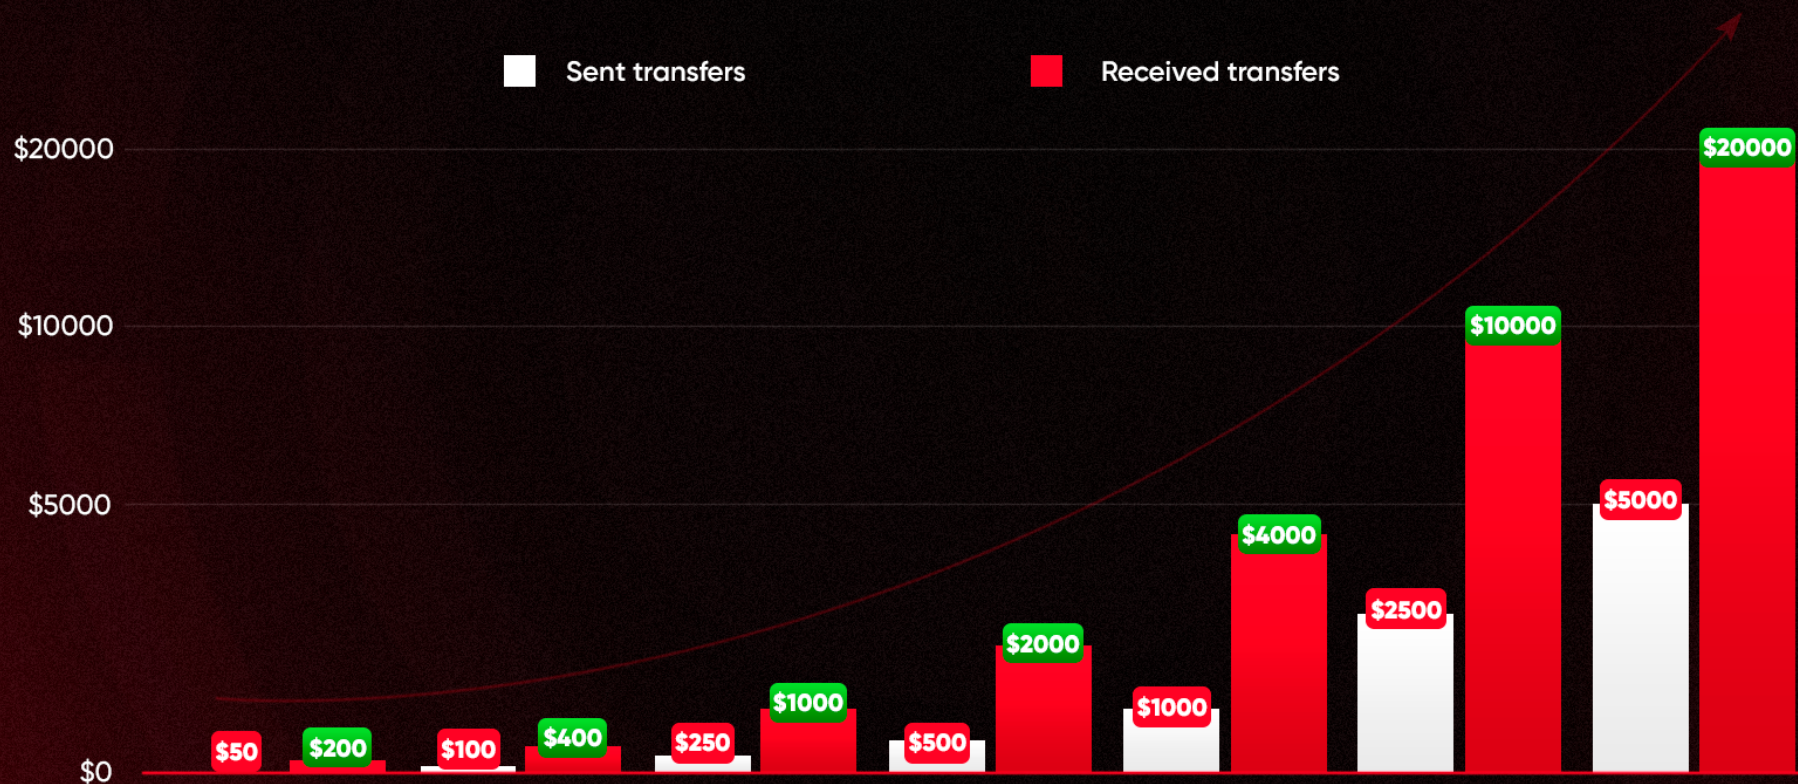

# IT REMAINS ONLY **TO TAKE A STEP** TOWARDS YOUR DREAM

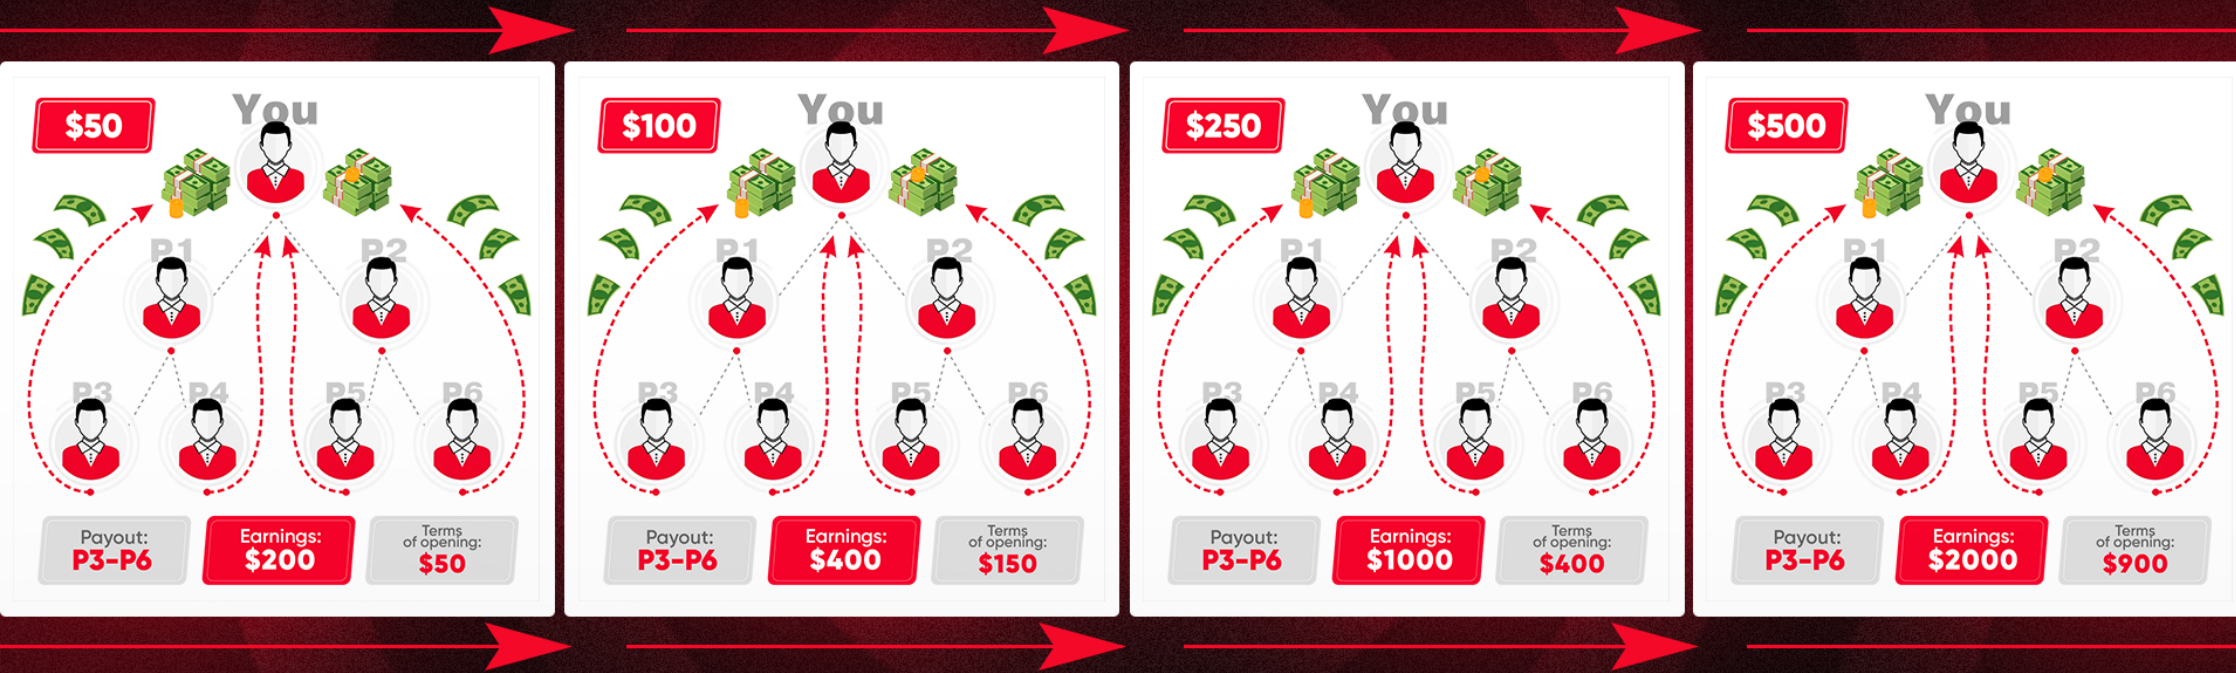

❧ If there is a will – there will be opportunities. If there are actions – there will be a result. ❧

## DYNAMICS OF PROJECT CASH FLOWS

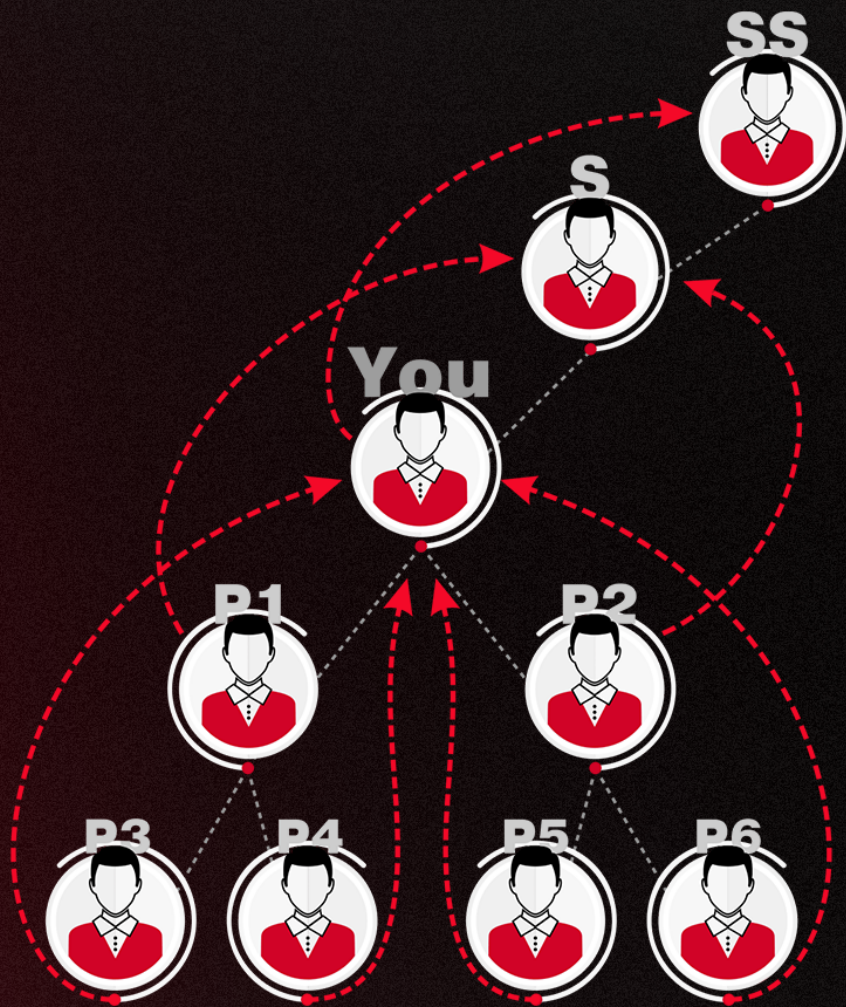

# MATRIX OPENING CIRCUIT

In the beginning, you will have only one matrix for \$50 available, but right after opening it you will have an opportunity to open the next one, and so on. For example, you decided to go in for \$1,000, first you need to buy a matrix for \$50, then for \$100, then for \$250, and after that for \$500. Thus, you will have 4 active matrices with a total value of \$900.

You can't open just one matrix for \$1,000.

## HOW TRANSFERS ARE MADE

The matrix is filled from top to bottom, from left to right.  
All transfers between affiliates are P2P, i.e. directly from affiliate to affiliate across one level.

# **A MATRIX IS FILLED IN SEVERAL WAYS**

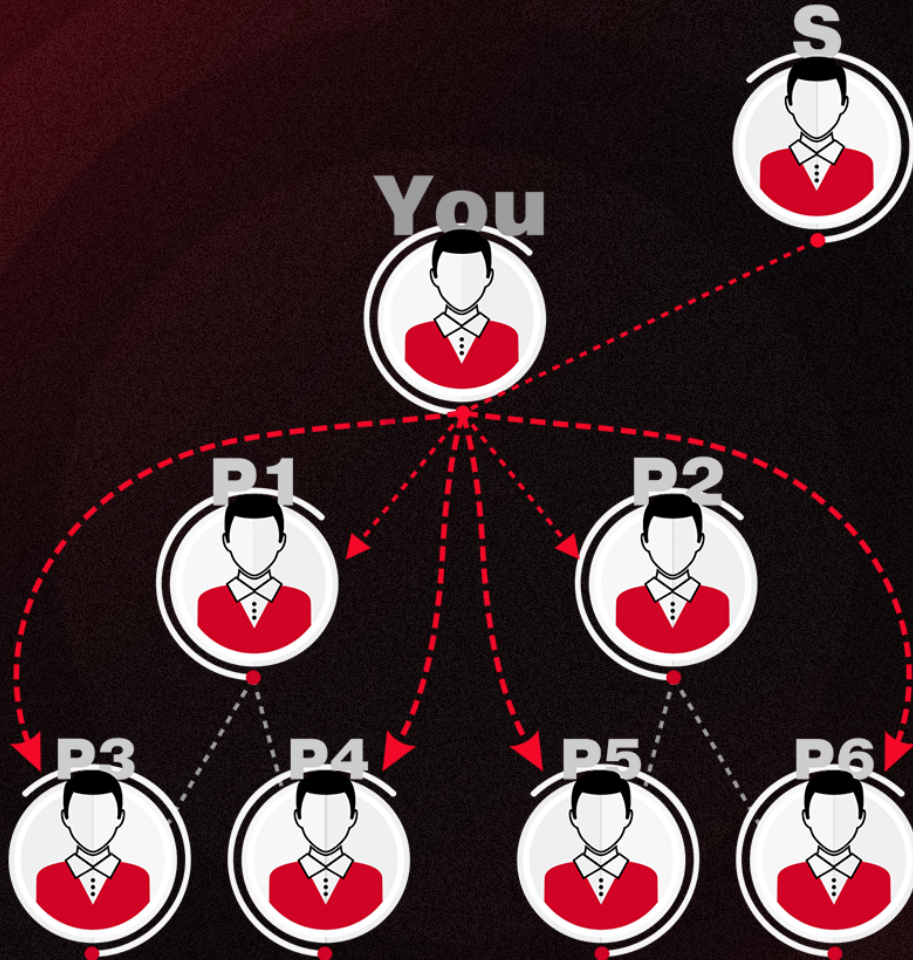

**1**  
Personal  
Invitations

**2**  
Affiliates of  
Affiliates

**3**  
Overflows from  
a Superior Sponsor

# PERSONAL INVITATIONS

You invite 6 affiliates – P1, P2, P3, P4, P5, and P6 – via your affiliate link, and they fill your matrix as shown in the picture.

Once a matrix is filled out, you can reopen it and invite new affiliates in the newly opened matrix. In this case, if your affiliates, who were in the previous matrix, close their matrices and open new ones, they get the first unoccupied slot in your newly opened matrix.

The more personally invited affiliates you have, the faster you will close matrices and the more money you will make.

# AFFILIATES OF AFFILIATES

You invite 2 affiliates – P1 and P2. Each of them also invites 2 affiliates – P1 invites P3 and P4, P2 invites P5 and P6. (as shown in the picture)

If you encourage each affiliate on your team to invite at least two active affiliates, and the team duplicates this in depth, you can earn manifold returns on matrices with only two personally invited affiliates.

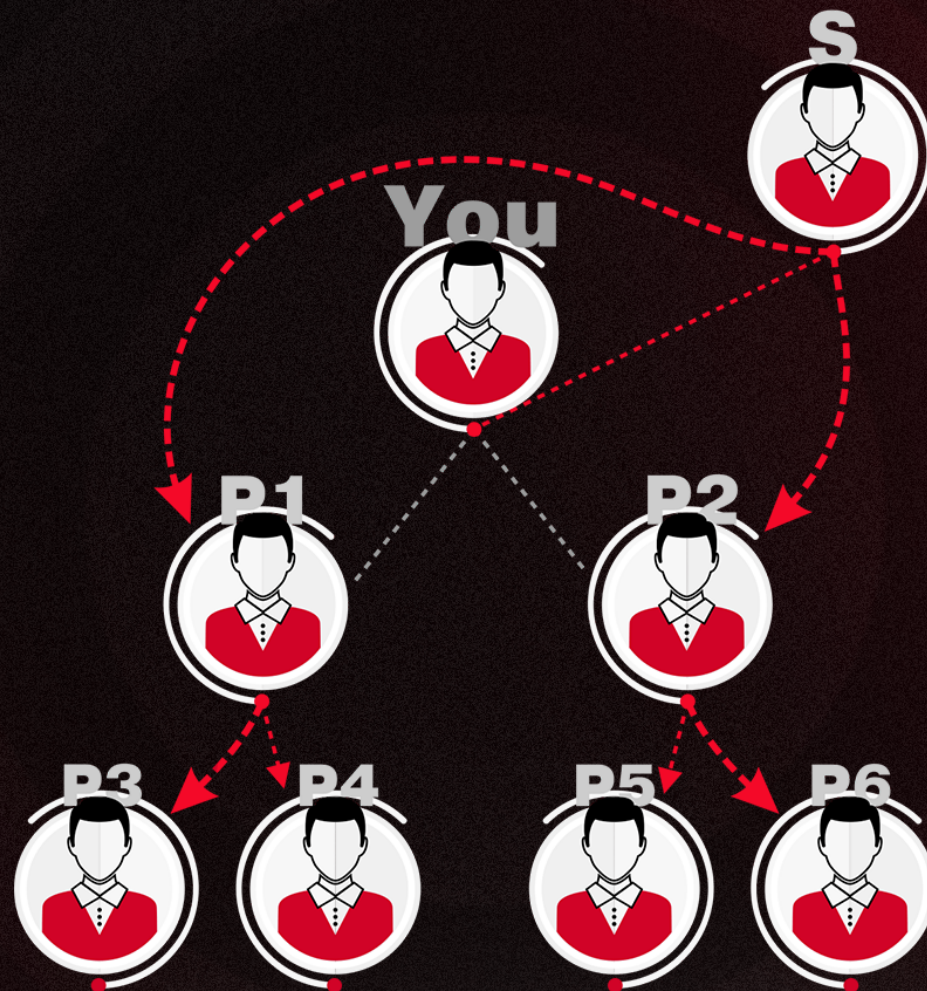

# OVERFLOWS FROM A SUPERIOR SPONSOR

An affiliate, who is one level above you in the matrix (it can be your superior sponsor, one of their personally invited affiliates, or an affiliate who overflowed to the sponsor) invites P1 and P2 into your matrix (they will take slots P3 and P4 in this person's matrix) and these 2 affiliates also invite 2 affiliates each – P1 invited P3 and P4, P2 invited P5 and P6. Thus, even if you did not invite anyone, you can fill all the slots in the matrix.

You can also get overflow affiliates who sign up via a direct link without an affiliate code if your account is the most inactive in the system (determined by the date of matrix payment or by the date of inviting the last affiliate via your affiliate link).

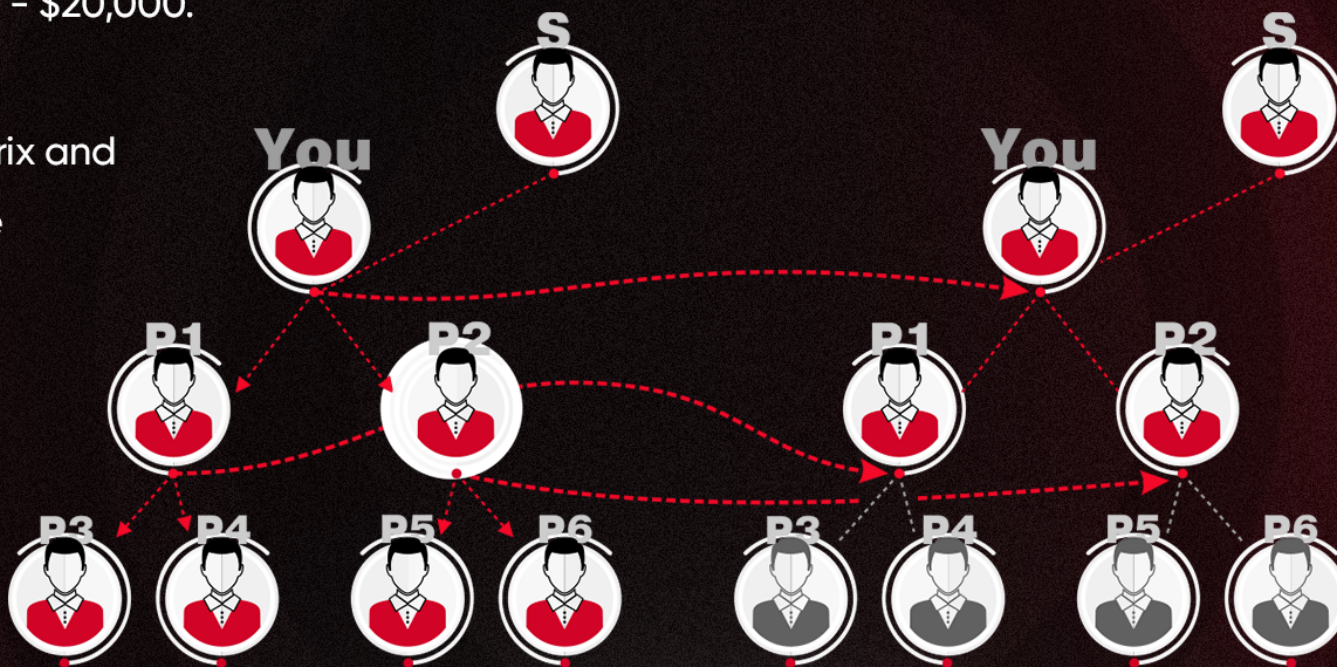

# GOING TO THE NEXT LEVEL OF THE MATRIX

Once the matrix is filled out, and you get 4 transfers to your wallet, it is closed. Closing the matrix for \$50, you get \$200, for \$100 – \$400, for \$250 – \$1,000, for \$500 – \$2,000, for \$1,000 – \$4,000, for \$2,500 – \$10,000, and for \$5,000 – \$20,000.

If you wish, you can reopen the matrix and continue making money, in this case you will get to the first unoccupied slot in the sponsor's matrix again. All your personally invited affiliates will also get to your new matrix when they open new matrices.

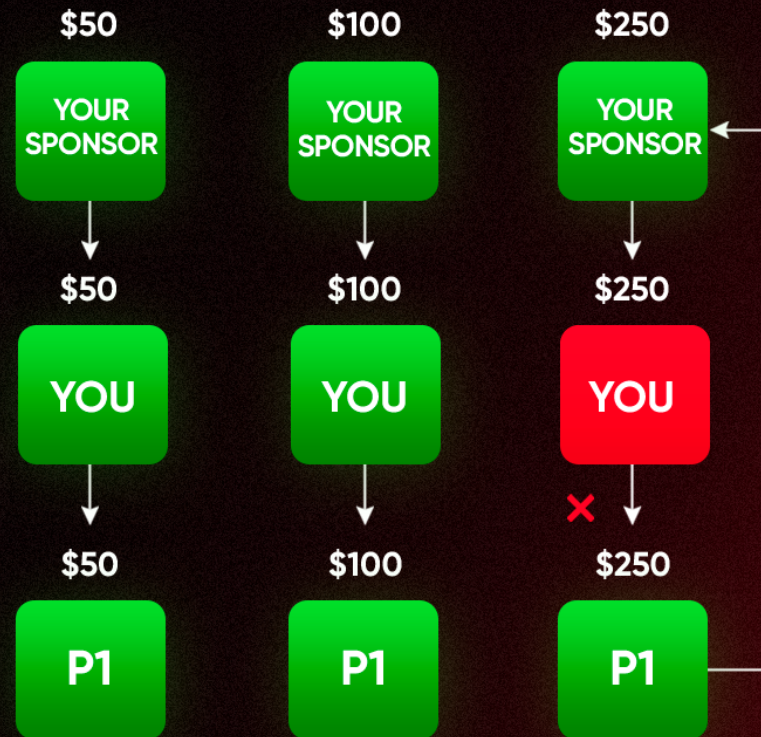

# WHY IS IT IMPORTANT **TO OPEN MORE MATRICES** AT THE START

## REASON №1

If any affiliate of your team enters with more money than you did, this affiliate will temporarily move to the closest sponsor with an open matrix of the same value, and you will miss a part of the profit.

When you open more expensive value matrices, these affiliates will return to you when you open new matrices.

### CASE:

**Significant revenue loss**

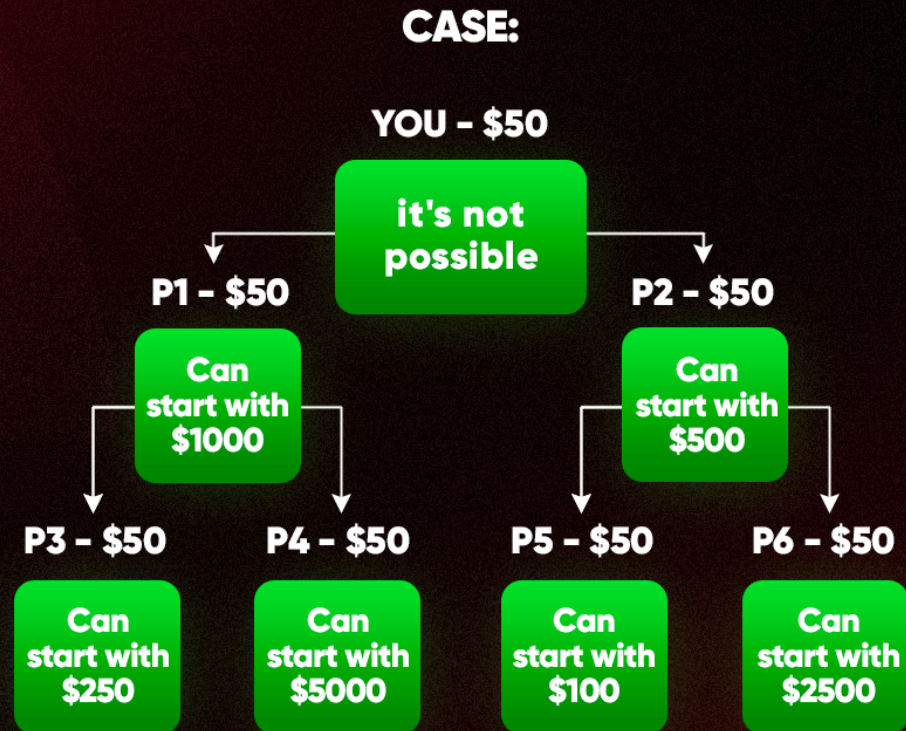

## REASON №2

If you go with small amounts, your potential affiliates will open matrices for the same amounts.

Dialogue example:

"What was the amount you started with?"

You answer "With \$50", and your affiliate will answer you "Ok, then I'll start with \$50", although he could potentially enter with larger amounts. If you take seriously this type of earnings, your affiliates will repeat your actions as well. Be an example for them!

**Loss of potential income**

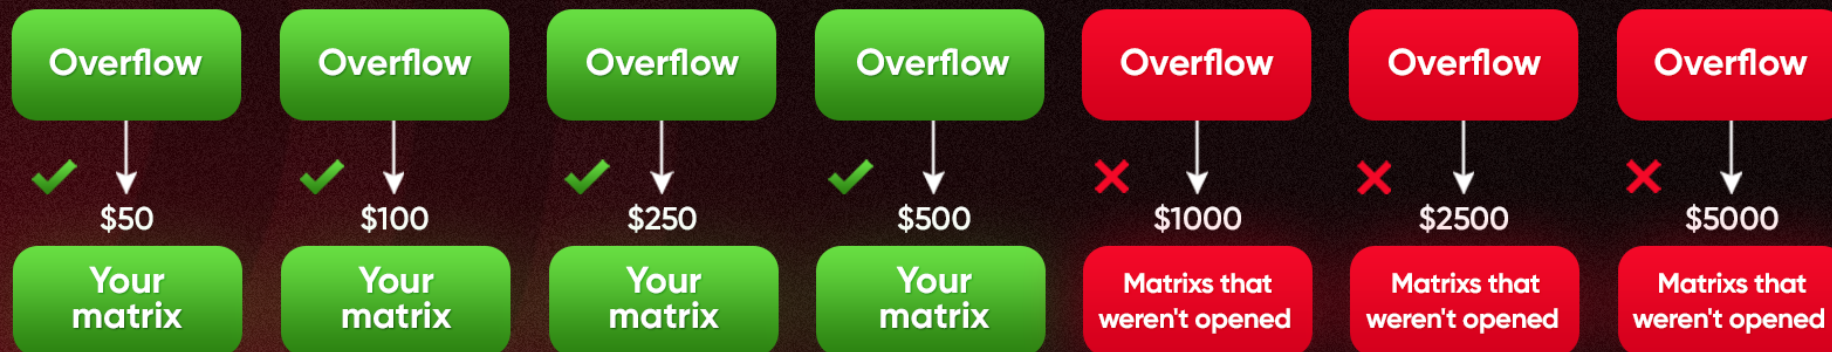

## REASON №3

When you open the matrices with for small amounts, you will miss the overflow from your higher sponsors.

The more matrices you have opened, the more money  
you can make from the overflows.

### CASE:

**Loss of revenue**

# EARNING SCHEME

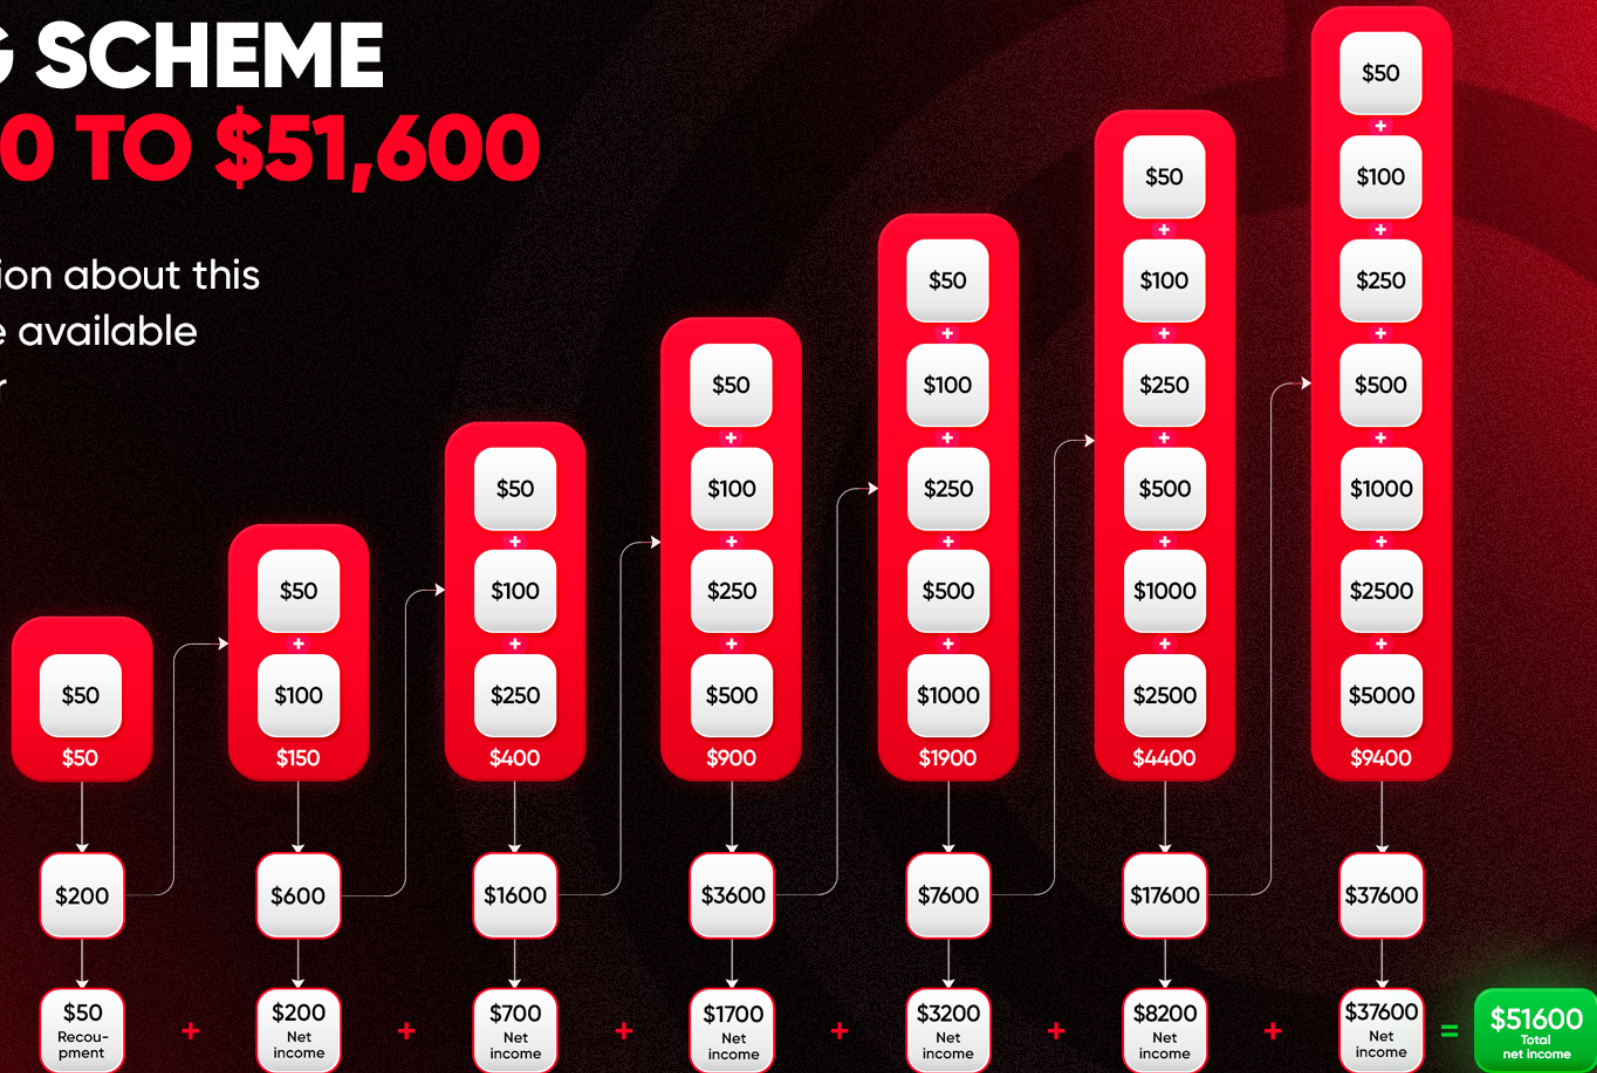

## FROM \$50 TO \$51,600

! More information about this scheme will be available at our webinar

Matrix level

Total matrix profit

Net income inclusive of reinvest

# CONGRATULATIONS!

You're definitely on the right track
